Why Clover?

Clover was built to unify **point-of-sale**, **payments** and **hardware** in an industry that has become overly fragmented – allowing businesses to focus on what they do best; **serve customers**.

Through our **all-in-one solution** you can manage every area of your business, including **integrations** to your providers through the **Clover Marketplace**

What makes Clover special...

Clover Hardware: Powerful POS devices

Clover Flex

Packing portable power with a ~6" touchscreen, built-in printer, camera and barcode scanner for payments, tableside ordering and even inventory

Clover Mini

Need a reliable terminal? Maybe a full-featured POS? Clover Mini is both. Expand functionality with best-in-class apps in the Clover App Market.

Clover Station Duo

A high-res 14" display for the merchant and an 8" display for the customer, both with chemically strengthened cover glass with anti-fingerprint coating.

Integrated LTE for primary or fallback connectivity.

Fast receipt printer

Kiosk

A commercial grade, 24" touch screen and 8" payment terminal, perfect for branding

User-friendly, intuitive interface with anti-fingerprint and anti-glare coating

Adjustable floor stand for wheelchair accessibility

Uses standard 3-1/8" thermal receipt paper

Kitchen Display

Orders show on your Kitchen Display System or print to your kitchen printer just as if they were placed at your counter.
